More Fun Ideas for Advancing Modern Foreign Languages in the Primary Classroom Sue Cave,2010 More Fun Ideas for Advancing Modern Foreign Languages in the Primary Classroom contains 77 activities for use with pupils who have been studying a new language for a while and are ready to progress beyond learning simple vocabulary and phrases. The fun activities will help pupils learn to manipulate the language, improve their decoding skills and discover how the new language functions at sentence level. The resulting recognition that language can be mastered is empowering. It enables creative communication and gives young learners a feeling of ownership of the language being learnt. The activities support the Year 5-6 objectives of the Key Stage 2 Framework for Languages. They are suitable for most languages and for a wide range of language topics. The inherent rationale behind each activity is that it is enjoyable and interactive, challenging children's understanding of the language and furnishing them with a purpose to their learning. With activities ranging from 'Human alphabet' and 'Foreign language detectives' to 'Secret signal' and 'Be the teacher', you will never be stuck for ideas.

Speaking, Listening and Understanding Catherine Delamain,Jill Spring,2017-07-05 Winner of the Primary Books category at the 2004 Education Resources Awards and Highly Commended in the Books for Learning Teaching category of the 2004 TES/NASEN Special Needs Book Awards. Written by two experienced speech language therapists, who have worked extensively alongside mainstream teachers, this book provides activities that are both teacher and child friendly. It contains a collection of graded games and activities designed to foster the speaking, listening and understanding skills of children aged from 5 to 7. The activities are divided into two main areas: Understanding Spoken Language: Following Instructions; Getting the Main Idea; Thinking Skills; Developing Vocabulary; Understanding Inference. Using Spoken Language: Narrating; Describing; Explaining; Predicting; Playing with Words. Each activity has a clear aim, simple instructions, and requires minimal equipment. Activities may be carried out by teachers, classroom assistants or volunteers. Incorporates user-friendly opportunities for assessment, target setting and evaluation. Includes photocopiable material to support the activities. Many of the activities can be used by speech language therapists, and the book can be used as an effective part of a speech and language programme. Promotes the skills outlined in Speaking and Listening in the English National Curriculum Key Stage One. Catherine Delamain has forty-seven years' experience of working with young children. Her last post before retiring was team leader for education in a large speech and language therapy service. She is currently collaborating in the delivery of a rolling programme of training for first and primary school teachers, designed to help them meet the needs of children with speech and language difficulties in mainstream schools. Jill Spring is a speech & language therapist specialising in speech and language disorder in children, and the impact of these difficulties on their learning. She qualified in 1972 and has worked in paediatric settings including community clinics, assessment centres, opportunity playgroups and mainstream schools. She is currently senior clinician in a speech and language unit, and is actively involved in providing training for teachers and learning support assistants, health visitors and those involved in nursery education.

Understanding and Using Spoken Language Catherine Delamain,Jill Spring,2017-07-05 Following on from the award-winning Speaking, Listening Understanding (for children aged from 5 to 7 years), this collection of original games and activities is designed to help children aged from 7 to 9 years. The exercises can be used by mainstream teachers with the relevant age group, as well as with older children with impaired or impoverished communication. In this instance, the activities would be especially effective if used by teachers and speech language therapists working collaboratively. They would also be a useful tool for teachers and therapists in special schools and speech language clinics. Divided into two areas

(Understanding Spoken Language and Using Spoken Language), each skill area is organised along broad developmental lines, and the activities can be easily incorporated into the daily classroom programme. Instructions are clear and simple, and the activities are designed for whole classes or smaller groups and can be carried out by teachers, speech language therapists, classroom assistants or volunteers. Equipment is kept to a minimum, and the book provides the majority of the resources as photocopiable pages, including many illustrations. Promotes the skills outlined in the Speaking and Listening section of the English National Curriculum Key Stage Two
